A1.1: SIUTATIONAL ANALYSIS:**TREND IN FAMILY PLANNING PERFORMANCES FOR LAST THREE YEARS.**

FP Achievement against ELA (in %)HMIS	Sterilization	IUCD	CC	OCP
2012-13	6722	8052	2693	5564
2011-2012	6829	7691	7212	7760
2010-2011	6113	7971	7913	6310
Achievement in FDS during year (2012-13)	4872	6022	408	678

It is reflected through the above table that the sterilisation and IUCD cases remain almost close to the last years' achievement while the CC & OCP users are reflected to be less during the year 2012-13. It was observed during analysis that the data of CC & OCP utilization through home delivery of Contraceptives by ASHA was not reflected in the HMIS report. Steps have been taken to ensure that those reports also get included in the HMIS report during the current year.

The heavy workload for the MPHWS (F) at the Sub Centre Delivery Points hampers the quality of the Fixed day approach for the Family Planning Programme. As per the norm & plan of the district for 2013-14, two MPHWS (F)s are going to be engaged in all Sub Centre delivery points. The FDS Centre services can be streamlined after the above action.
