Sub:- COVID test result Data Uploading discrepancies.

Madam/Sir,

In view of the data discrepancies noted in the ICMR Portal, it is found that some districts and laboratories are not uploading test result data in ICMR portal in time, creating a large number of backlogs.

To clear up such discrepancies you are instructed to take the following steps:-

1. Upload all pending results to the portal within 2 weeks as quickly as possible.
2. In case of repeat samples in RAT negative symptomatic cases, repeat option in RT-PCR application is to be selected and for repeat testing the designated RT-PCR lab is to be selected / linked where the test will be done so that the laboratory can upload the repeat testing results.
3. The districts have to verify the data upload status and in case of difficulty in such cases should get the result from laboratories and upload themselves at their level to clear the backlog.
4. The districts should designate a nodal officer for data uploading and should be in constant touch with laboratories to avoid such situations and see that all tests done in the district are uploaded in ICMR Portal.
5. The Name of the identified Nodal Officers with contact No. is to be intimated to the DPH, Odisha for further reference and to clear pendency.

Yours faithfully,

16/06/2021
